

Ecogranite Boulevard Block Paving

Data Sheet

a Forterra brand

A striking bush hammered finish exposes sparkling granite and provides an excellent skid / slip resistance quality. Consisting of seven various sizes. Each layer contains twelve separate paving blocks that are delivered in a standard laying pattern which can be varied to suit individual designs. Available in 80 and 100mm+ thickness, with a variable coarsing width of 225mm and 275mm. Ecogranite edging has been specially designed to complement the range.
